INTRODUCTION

- *Online Examination System* has become a fast growing examination method because of its speed and accuracy.
- Need less manpower to execute online examination.
- Easy to check the performance of the student
- Helps the environment by saving paper.

TRADITIONAL SYSTEM

- Existing system is manual
- Keeping of the details of the student who have registered already
- Difficult for some students from far distance to reach the exam centre
- Prepare registration\application form, question paper for the students
- Lot of time and wastage of money
- Possibility of errors

PROPOSED SYSTEM

- Overcome the drawbacks of existing manual system
- Result will be precise and declared in short time
- No chances of leakage of question papers
- Logs of appeared candidates and their marks are stored and backup for future use.
